

Order form for Consonant Confusion Task (CCT) and Auditory Performance Task (APT 1)

These two closed-set speech tests have been produced for paediatric audiology clinics or for use in the evaluation of hearing aids for children. Each set contains a book of response cards, score sheets which can be photocopied from the original book and a pre-recorded CD. There is a calibration tone on the CD. The second channel has speech-shaped noise to allow testing of speech in noise.

The cost of **one** test is **£100. If you wish to order both, the cost is £180.** A cheque can be made payable to "Chear" with the order, or a purchase order number can be supplied with the order.

Please fill in the details below:

I would like to order _____ set(s) of the CCT speech test at £100 each, including post and packing.

I would like to order _____ sets of the APT 1 speech test at £100 each, including post and packing.

I would like to order _____ sets of both tests at £180 per set.

I enclose a cheque made payable to "Chear"* for a total of £_____ or
